VEGAN CANDLES

environmentally
friendly produced

The fair trade certified candles are made from certified palm kernel wax and hand poured in a small factory in Java, Indonesia. The factory offers the rural women from East Java employment opportunities, training and fair wages to empower them to support their families. Design and colour scheme by originalhome.

- 100% NATURAL
- HAND POURED
- NO PERFUME
- CLEAN BURN
- FAIR TRADE CERTIFIED

MATERIAL

THE CANDLE POURERS FROM EAST JAVA, INDONESIA

The founders of the candle factory started their business for a specific reason: giving back to their community in East-Java, Indonesia. Their starting point was to empower the community by creating more job opportunities. The founders could have easily operated their business with machines; however, this would not have been in line with their goals. They set up a workshop that produces vegan candles entirely by hand. More hands means more job opportunities for rural communities because these areas suffer from high unemployment rates. The majority of their workforce consists of rural women. They receive a special candle pouring training program, English classes and other life skill lessons to increase their family income.

The WFTO certified workshop provides these women with a safe working environment, fair wages and free medical insurance for themselves and their families. This way of working empowers these rural women to become more independent and increase the respect they receive from their community.

CANDLE MAKING CRAFT

All candles in the originalhome collection are poured by hand. The process is simple but requires a lot of patience and concentration. The vegan wax is melted in big kettles and then poured into jars. The jar is used to pour the liquid wax into an iron mold that contains a cotton wick. Candle pouring is actually a very precise skill. The wax should be poured into the mold in one fluid motion to create a consistent candle. This requires control and concentration. It is said that women are the best candle pourers.

MY WORLD!

CARE INSTRUCTIONS

To improve the lifetime of your quality candle please read the instructions below.

CARE INSTRUCTIONS

- Clean the candle with a soft, dry cloth to remove the candle dust. Candle dust is a thin layer that occurs when candles are exposed to large temperature differences.
- Trim the wick regularly to 1 cm in length to prevent the candle from burning too quickly.
- Place it on a flat, heat resistant surface and keep it away from draft.
- Do not place the candle close to a heat source or sunlight to avoid melting or colour fading.

SAFETY INSTRUCTIONS

- Never leave a burning candle unattended.
- Keep away from children and pets.
- Place candles at a distance of 10 cm from each other to prevent candles from dripping.
- Keep candles away from draft and flammable materials (before lighting the candle), this also includes other (paraffin) candles.
- Place the candle on a flat heat-resistant surface. Please make sure that the candle is fixed and cannot fall over.
- Do not place a burnt match or other materials in the candle grease (do not light the candle with another candle).
- Use a snuffer to extinguish a candle or blow carefully while holding your hand behind the candle.
- Do not add water or any other fluid to the candle.
- Do not move a burning candle.
- Place the candle straight up to prevent the candle from dripping and smoking.
- Do not mix paraffin wax or any other burning material with palm kernel wax.

Please check our safety instructions at [originalhome.nl/care-instructions/candles-from-palm-kernel-oil/](https://www.originalhome.nl/care-instructions/candles-from-palm-kernel-oil/)
